

BUSINESS IN GREATER KL

DYNAMIC, DIGITAL, DIVERSE

US EDITION

GREATER KUALA LUMPUR

A Dynamic, Digital & Diverse City

Greater Kuala Lumpur (Greater KL) has grown to become a notable business centre that is appealing to high-impact and technology-oriented companies, in diverse sectors such as high-value services, Internet of Things (IoT) and robotics, Industry 4.0 related, consumer & industrial products, energy, engineering services and more.

The city has benefited from the concentration of capital, knowledge, talent, and enterprises that make up the vitality of the city. The city's notable ranking includes 25th in World Competitiveness Yearbook 2021, 15th among Asia Fintech Hubs, the 9th Top Asia Pacific City with the potential to be a tech innovation hub and a favoured expansion destination for ASEAN companies looking for growth opportunities in the region, according to Standard Chartered.

With talent being the key ingredient to continued success in Industry 4.0, Greater KL's young, multilingual, highly educated and highly skilled workforce represents an in-built and sustainable talent pipeline for long-term investors. Greater KL is the world's Top 20 Cities for Digital Talent while local universities continuously make their mark on the global stage.

Greater KL also boasts a high liveability factor for foreign high-skilled talents, being deemed the Best City for Expats in 2021, 32nd Safest City, while being Asia's 2nd Cheapest City for International Schools.

TRADE BETWEEN MALAYSIA AND THE UNITED STATES (US)

Malaysia and the United States (US) had over 60 years of relationship. Today, both countries share a diverse and expanding partnership in trade, investment, security, environmental cooperation, and educational and cultural relations.

The US is Malaysia's third-largest trading partner¹, while Malaysia is the US **17th largest trade partner**, with bilateral trade valued at **US\$71.4 billion** in 2021. The US and Malaysia elevated the bilateral relationship to a Comprehensive Partnership in April 2014.

In 2021, US investors accounted for **RM15.7 billion of foreign direct investment (FDI)² flows** and **RM30.9 billion** of FDI income into Malaysia.

As a result, **Kearney's 2021 Global Services Location Index (GSLI)** ranked Malaysia the **third most competitive Global Business Services (GBS)³ location in the world**.

Both countries also share membership of regional organisations such as the **Asia-Pacific Economic Cooperation** forum and the **ASEAN Regional Forum**.

GKL LIVE LAB

Under this initiative, foreign companies can bring their ideas to life while collaborating with local players to create high-value and future-ready jobs, as well as deepen the local ecosystem with sophisticated and complex activities.

SUCCESS STORIES OF AMERICAN MNCS IN GREATER KL

MCDERMOTT

The leading global solutions provider of engineering and construction to the energy industry, McDermott International chooses Greater KL to set up its Asia Pacific headquarters.

Malaysia's aspiration to be a leader in integrated oil and gas service hub in the region aligned with McDermott's growth and expansion plan

Malaysia's supportive government policies, robust infrastructure, vibrant business ecosystem and access to future-ready talent led McDermott to pursue its ambitious growth across Asia from Greater KL.

The company found Malaysia has a very good talent pool for the oil and gas industry and is impressed with the capabilities displayed by their local employees. The company says the professional, trained and experienced workforce in Malaysia's oil and gas industry to be advantageous to the company's expansion strategies.

Since the relocation from Singapore, the company has grown to over 870 employees and brings immense spillover benefits such as the transfer of knowledge, technology and industry partnership.

McDermott credits its growth in Malaysia would not have been possible with the valuable role played by InvestKL.

Greater KL's central location makes it a strategic investment destination for a regional headquarters. This complements by the country's maturing oil and gas industry. McDermott presence in Malaysia allows the company to be closer to our clients and suppliers and gain access to an established workforce and matured supply chain network.

Mahesh Swaminathan
Senior Vice-President,
Subsea and Floating Facilities,
McDermott

“
Malaysia will play a critical role in the strategic growth of our iconic brand by helping our organisation shape into one that can support a more nimble, efficient and effective Tupperware in the future.

Patricio Cuesta
President,
Commercial Worldwide,
Tupperware Brands

TUPPERWARE BRANDS

For Tupperware Brands, Greater KL was the obvious location of choice when the company decided to set up its Global Business Services (GBS).

The producer of a much-loved line of plastic containers for food storing and preparation amongst Malaysian household, the establishment of the office in Malaysia will focus on building the brand's focus on customer-centricity and digital processes across the Asia Pacific region. The office will also house regional corporate functions such as Marketing, IT, Finance, Legal and Customer Care.

The expanded presence in Greater KL is expected to create approximately 70 jobs.

Tupperware's strategy of expanding the capabilities of the Malaysia hub office is to set the foundation of a new way to strengthen the business with a modern and innovative approach to accountability, productivity, service delivery and business continuity.

Tupperware thanks InvestKL's assistance and facilitation efforts with helping the company set up a new shop in Greater KL.

ORACLE

First incorporated in Malaysia in 1988, Oracle Malaysia has served the ever-growing need of its Malaysian clients ranging from banking and finance, manufacturing, telecommunications, hospitality, public services, utilities, and oil & gas for over 30 years.

The recent surge of online transactions amongst Malaysians during the Movement Control Order (MCO) compelled businesses to adapt to changes in consumers' behaviour, trends and uncertainties. The retail industry leverages on technology and cloud storage to cater to the fast-growing demands of customers.

Oracle saw the opportunity by providing enhanced comprehensive solutions for businesses through its Oracle Digital Hub. Established in 2016, the hub's growth has been very rapid.

Availability of a large talent pool, language diversity, robust infrastructure and vibrant economy attracts Oracle to expand its growth and operations in Malaysia and ultimately to become a leading cloud provider in this region.

The company thanks InvestKL for the tremendous support and effort to fortify its presence in Malaysia.

The availability of a large talent pool, language diversity, robust infrastructure, and the competitive cost of doing business are factors that make Greater KL an ideal destination for Oracle's growth and expansion.

Fitri Abdullah
Managing Director,
Oracle Malaysia

QUANTUM

Quantum Corporation, a global player in cloud-based data solutions, storage and management identified Greater KL as the ideal city to set up its hub.

In line with the company's aspiration towards creating integrated data protection and management solutions, Quantum was first established as a call centre to support the company's multilingual operations across the Asia Pacific. This call centre evolved into a Centre of Excellence in 2018.

Professional, trained and experienced Malaysian workforce attracted Quantum to establish its presence in Greater KL. The local talent pool has a lot of diversity, and this bodes well with the ever-growing data storage industry. It reflects in its Centre of Excellence and Executive Briefing Centre which is fully operated by local employees.

Its strategic geographic location, supportive government policies, robust infrastructure, and vibrant business ecosystem are also among other factors that led Quantum to expand its growth in Greater KL.

Bringing the company to greater heights, Quantum is also part of Greater Kuala Lumpur (GKL) Live Lab initiative introduced by InvestKL. Through this initiative, the company aims to develop a new algorithm that predicts if components need replacement before their end-of-life cycle.

For Quantum, its growth in Greater KL is made possible with the help and support of InvestKL.

Professional, trained and experienced Malaysian workforce attracted Quantum to establish its presence in Greater KL. The local talent pool has a lot of diversity, and this bodes well with the ever-growing data storage industry.

Jim Simon,
General Manager,
Quantum Corporation Sdn Bhd

TAKING ESG TO THE NEXT LEVEL FROM GREATER KL

Environmental, social, and governance (ESG) principles have shifted the world, transforming business landscapes and influencing decisions, and is now marked as a prudent investment practice. Malaysia has committed to one of the region's most ambitious carbon neutrality pledges in the 12th Malaysia Plan.

Underpinning the government's overall economic development framework is its New Investment Policy, which aims to strengthen the country's investment ecosystem through key pillars of the National Investment Aspirations to develop high-value sectors, while promoting inclusive growth and enhancing ESG practices.

Greater KL is stepping up on its sustainability efforts to align with the government's goals. Many leading GKL-based global companies are also committed to similar emissions reduction pledges, resulting in a business environment of mutual collaboration around sustainability. This conducive environment is part of many reasons why hundreds of leading global companies have chosen GKL as their regional hub.

In a report developed in collaboration with MIT Technology Review Insights, explore what global companies in Greater KL and Malaysia are doing to achieve their ESG targets.
